Two factories

Factory specialised in suits & fashion

We are specialised in producing top quality suits in a state-of-the-art facility. Our new and specialised machines combined with our thorough know-how guarantees top quality fashion garments

Factory specialised in corporate wear

From airlines, bus companies, cruise lines and food chains to railway operators, the police force, hotels, pharmacies and security companies. Our customers belong to a wide variety of business areas. That makes us experts in corporate wear.

About us

With high service level and quality assurance from a sustainable perspective, we produce a wide range of garments for our corporate wear and fashion customers at our factories in Bangladesh.

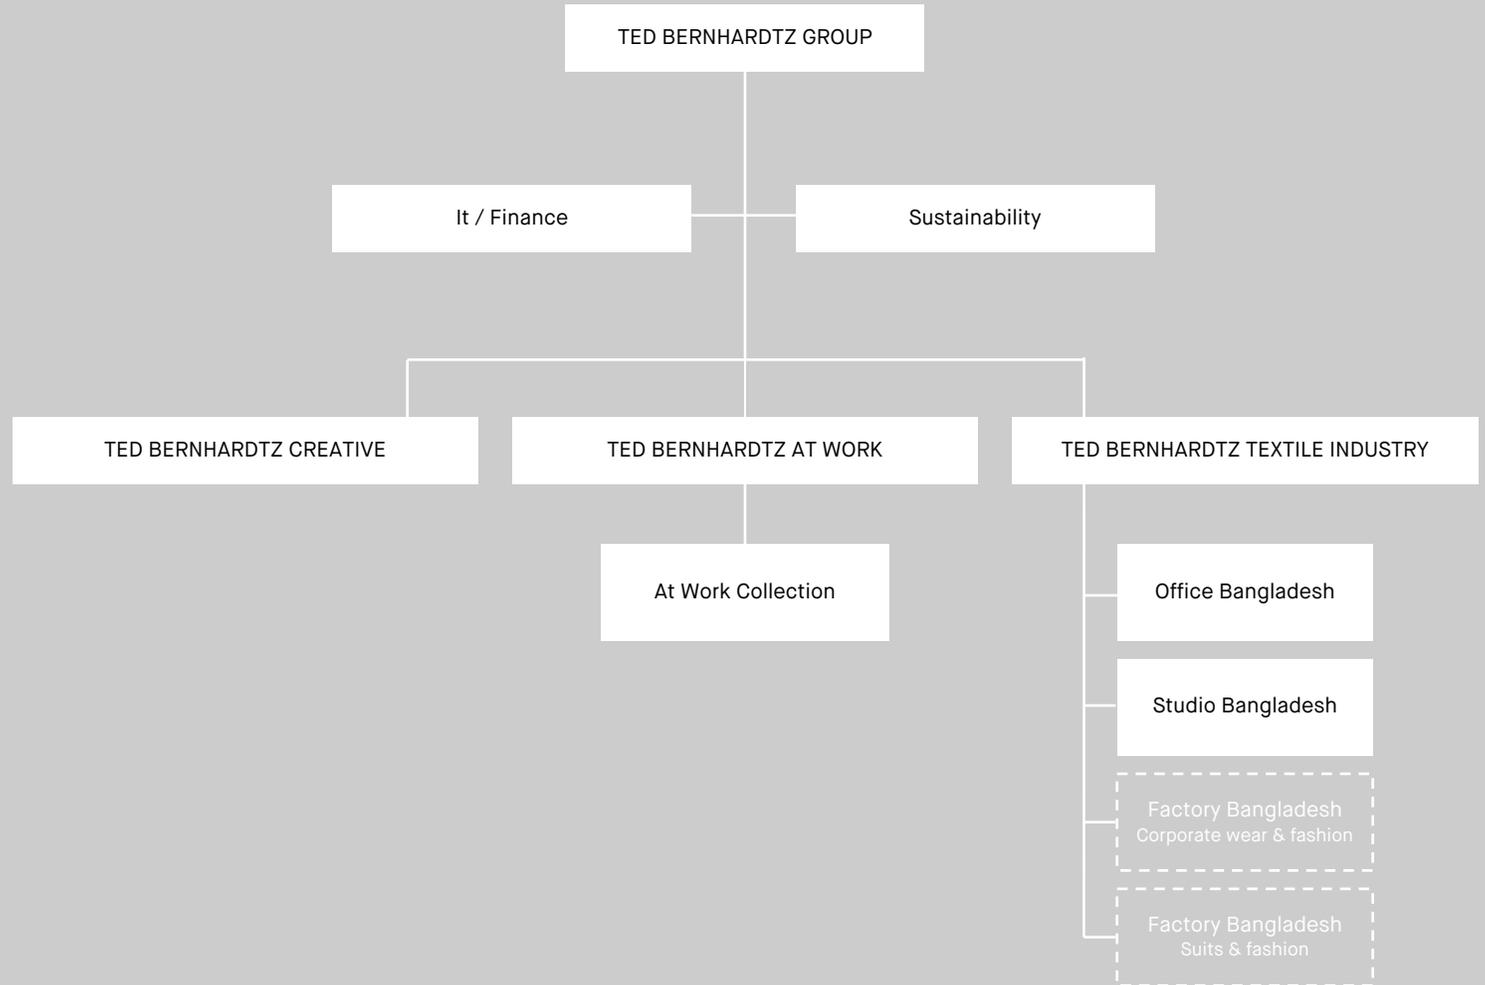

Through the close cooperation between our office and design studio, we offer full service, quality and flexibility from first sketch to delivery.

A part of Ted Bernhardt Group

We are part of a creative textile company and design studio, who develops and produces clothes as a brand concept for customers in all business areas.

Ted Bernhardt Group in Sweden and Bangladesh produces creative and modern clothes concepts through a sustainable production. With our unique design and strong branding concept we assist our customers in their every day challenges.

Our values

From the very beginning, our first and foremost aim has been to listen and to understand our customers. This has also been defined as one of our core values. We strive to be a trusted partner to all our customers.

We aim towards excellence in all our activities: By continuously renewing and evolving we will be the leader in our field of business, and can produce top-quality products.

MISSION

Our mission is to offer our growing customer-base products with superior quality that protect them against all elements of nature. Also, is to become a leading sustainable garment manufacturer in Bangladesh.

VISION

Our vision is to mature in to a highly reputed manufacture of garments in the international market by producing to quality products which conform and surpass the customer expectation.

FOCUS

We focus on production of top quality garments in a fully compliant environment meeting.

Quality assurance

We follow an acceptable quality level (AQL) of 2.5 to 4, depending on the client's requirements. Our factories conducts inspections at all stages of the production process, including fabric and accessories.

FABRIC INSPECTION

All the material are laboratory tested before shipment. We also conduct random inspection based on point system.

ACCESSORIES INSPECTION

Accessories used by us are imported from various countries around the globe and randomly checked.

Our environment

Our commitment to our clients begins with our employees. Our employees are our strongest asset and we ensure that the working environment at our facilities is safe, comfortable and productive.

Factory cooperations

Our greatest challenge is integrating sustainability in every aspect of our business and our day-to-day work. This includes integrating sustainability with our suppliers and partners, both for people and planet.

Where priorities may not always be the same across the globe, we believe understanding, a mutual respect of our undertakings, common goals, gradual development and constant improvement, are important factors.
